

Wood Floor Finishes

from Professionals

What we offer ...

Treatex® is a forward-looking, professional company in the floor finishing market with over 50 years of accumulative experience. Our aim is to ensure that your wooden floor receives optimal treatment by using our products. This contributes to the durability and healthy appearance of the wood. By carefully selecting the raw materials we use and employing high-quality production methods, we ensure that our products are ecologically sound for humans and the environment as well as effective and easy to use.

Our Vision

Treatex sees itself as a forward-looking, innovative company. We consider it our task to promote and encourage creativity and to give even unconventional ideas a chance. We aim to tackle change with openness and aspire to learn and improve on a daily basis.

Employees

We consider ourselves to be attractive employers and both fair and respectful partners. Our employees represent our greatest strength and the cooperation between employer and employee provides the basis for our success, motivation and the pursuit of a common goal.

Business Partner

Mutual respect, fairness and honesty are fundamental principles of cooperation between Treatex partners. That's why we endeavour to form trusting relationships with our customers and are always willing to exchange knowledge and experience. Our aim is to generate a win-win situation for all parties.

Customer Service

Communication is at the heart of our company policy. We understand that all our customers, whether they be architects, specifiers or consumers, have different needs and expectations. So that we can provide the best possible service to each and every customer, we carry out regular training programmes and offer comprehensive service. With our high-quality products and attractive price-performance ratio, we aim to guarantee customer satisfaction.

... excellent treatment

Future

Our aspirations for the future are to gain a leading position in the market by means of our distinctive image, identity and ambition. In the long term, we see ourselves as an international player providing high-quality, ecological products that more than live up to the needs and demands of our customers.

Products

We want to maintain an excellent standard of quality. That's why all our floor treatment products undergo the strictest possible controls. In addition to these important quality control checks upon receipt and before dispatch, we do attach great importance in the selection of our raw materials to the ecological practices employed by those involved in the manufacturing process and the manufacturing installations used.

Our Product Range

Treatex carries the following product ranges:

- Hardwax Oil Traditional
- Hardwax Oil Eco
- Water-based Lacquer systems

We offer to all our product-lines special maintenance and care products to ensure the highest possible quality for your flooring surface.

Environment

The environment is our greatest asset. We don't want simply to use nature but to take it on as our role-model. By using environmentally-friendly raw materials, through research, production, packaging and waste disposal, we are able to take steps to protect our environment. Plus, maintaining and treating wooden flooring with our products can increase their durability and product life. This is a way for us to care for and protect this natural resource - wood.

Our product ranges:
