

Product Description: Whittle Waxes Refresher

Refresher maintains, seals, and rebuilds a nourishing protective layer on vinyl floors, linoleum, laminate and multiple other synthetic surfaces.

- **Renovates**, It is designed to restore the surface after an intensive cleaning with Whittle Waxes Intensive Cleaner.
- **Protects new surfaces**, Refresher can be applied after installation for preventive care.
- **Restores used surfaces**, rejuvenates the surface, any minor scratches will be hidden.
- **Radiant**, Refresher brings back the shine naturally to the surface without any heavy labor.
- **Renews**, Refresher is a care product based on acrylates, designed especially for synthetic surfaces.

Recommended Tools: cloth and mop be sure that the mop is fluff and lint free.

Container sizes: 1 litre and 2.5 litres.

Clean tools: Clean the tools immediately after use with soap and water.

Sheen level: Satin

Dilute: Apply undiluted

Consumption: Approximately 15 ml/m², i.e. 1 liter Vinyl refresher undiluted is sufficient for approximately 60 - 70 m² surface per coat.

Drying time: at least 1 hour. Do not walk on the surface during this time.

Note: The application temperature (incl. drying) above + 8 °C.

Storage: Cool but frost-free. In unopened packages for 3 years. Opened cans/buckets should be filled into smaller, suitable airtight containers and used soon.

Preparation:

1. The surface must be frost-free, clean, dust-free and dry.
2. Remove impurities with Whittle Waxes Intensive Cleaner, rinse well and allow to dry before applying Whittle Waxes Refresher.
3. Whittle Waxes Refresher could affect various surfaces differently, a trial coat is required.

Application:

1. Apply Whittle Waxes Refresher undiluted
2. Spread evenly with damp cloth or mop.
3. Avoid puddles and drops.
4. There is no need to polish, as Whittle Waxes Refresher gives a self-shining surface.
5. Allow to dry at least one hour.

Ingredients: Water polymer dispersion, carnauba wax, emulsifiers, can preservatives, <5% non-ionic surfactants.

International GHS Safety Notes: EUH208 Contains 1,2-benzisothiazol-3 (2H) -one. May produce an allergic reaction. EUH210 Safety data sheet available on request. P101 If medical advice is needed, keep packaging or label handy. P102 Keep out of the reach of children. P103 Read label before use. In case of skin contact, we recommend wearing suitable gloves (nitrile). When using several containers with different lot numbers, mix these together in a large container. Stir contents and shake well before and during use. Only give completely empty containers for recycling. Dried residue can be disposed of as household waste or as construction waste. Dispose of liquid remains at a collection point for old paints.
